A MESSAGE TO STUDENTS AND THEIR PARENTS

These are very important years for students in Years 9 and 10. Not only are you gaining skills and knowledge which will form the foundation for future learning and success, but you are also engaged in studies that will be assessed both within the school and through statewide examinations that occur towards the end of your Year 10 studies.

We are confident that Year 9 and 10 students and their parents will benefit from this booklet which explains the Record of Student Achievement (RoSA) requirements and sets out clearly the school's assessment programs, the grading system and the role of performance descriptors in each subject studied at the school.

We hope that you find this booklet informative and useful for the 2022/2023 school year.

Dr Joanne Bellette
Principal

PREAMBLE

The Record of Student Achievement is a credential marking the end of junior secondary schooling. The Record of Student Achievement provides students, parents, employers and the general community with information on students' achievement in the Record of Student Achievement courses.

The Record of Student Achievement is awarded to a student when they complete their schooling.

If a student leaves school without completing and/or qualifying for a Record of Student Achievement, NESA (New South Wales Education Standards Authority) will issue the student with a Transcript of Student Participation.

Grades A - E will be awarded in all courses excepting Mathematics, based on school-based assessment of students' achievement with reference to performance descriptors issued by the Board of Studies. The Mathematics course will use a similar grading system as mandated by NESA.

INFORMATION FOR STUDENTS AND PARENTS / CAREGIVERS

ASSESSMENT REQUIREMENTS FOR THE RECORD OF SCHOOL ACHIEVEMENT GUIDE

Students are expected to make a genuine attempt to complete all classwork set and attend lessons on a regular basis.

The following is a shortened version of the ACER Guide to Assessment for the New South Wales Higher School Certificate and RoSA.

A more comprehensive guide, in the form of the Corowa High School Whole School Assessment Policy, will be sent electronically to all year 10 students and their parents/carers.

Copies can also be located on the school website and hard copies can be viewed in the waiting area of the administration block or the library.

1. Students will be given two weeks notice before Assessment Tasks are due.
2. Late completion and/or submission of Assessment Tasks will be awarded 'zero' marks and an 'N' Award warning letter will be issued.
3. Assessment tasks **must be submitted before 9am of the date due unless stipulated on assessment notification** or an 'N' Award will be issued.
4. If a student is unable to attend the day, a task is either due or to be attempted, the school must be notified **before** 9am of the due date, or an "N" Award warning will be issued.
5. All absences that occur on or the day before an assessment task is due must be supported with a medical certificate or an 'N' Award warning will be issued.
6. Technology failure is **not** an acceptable reason for a late assessment task.
7. Plagiarism of any sort will result in either a reduction of marks or in serious cases an 'N' Award for that task will be issued.
8. If a teacher decides that a student has failed to make a serious attempt to complete an assessment task, no marks will be assigned to the task and an "N" Award warning will be issued.
9. 'N' Award warning letters will be sent to parents before an "N" Determination will be issued for any tasks.

APPEALS

In the case where a student considers they have a genuine reason for appealing an 'N' Award or an N Determination, they should submit a written appeal to the **Head Teacher** of the Faculty concerned.

Further appeals can be made to the **Principal** in the cases where students are unsatisfied with the Head Teacher's decisions.

UNFAIR ADVANTAGE

If a student does something (deliberate or accidental) that gives them an unfair advantage, they may be awarded ZERO marks for the assessment task and an 'N' award warning.

Examples of this include: - but is not limited to:

- Staying away from school, sport or lessons to complete assignments that need to be completed in their own time
- Handing in work later than the designated time
- Copying other people's work or providing your work to be copied by others
- Not organising to do an alternate task or the same task at an alternate time if you know you will be away
- Having a mobile phone or notes in Examinations

Computer or technology problems will not normally be seen as valid reasons for failure to submit Assessment Tasks. Students are expected to allow sufficient time for printing etc and also keep backup copies as required.

YEAR 10 LAST DAY OF ATTENDANCE

Year 10 students are expected to remain at school full time until the last day of the school year.

CHILD STUDIES
